EDUCATION

High School
Patgaon Prov. HS School
Patgaon, Kokrajhar
2013 – 2020

Higher Secondary
Don Bosco Higher Secondary School
Chapaguri, Bongaigaon
2020-2022

Degree
Central Institute of Technology Kokrajhar
2022-2026

INTEREST

- Listening music
- Watching movies
- Travelling
- Practicing digital illustration

ACHIEVEMENT

- Regional Participation: Selected for project presentation at Anveshna NE.
- Academic Performance: Secured a BB Grade in core Industrial Training

OBJECTIVE

I'm a B. Tech Electronics and Communication Engineering student with a passion for technology and innovation. With hands-on experience in wireless communication systems, UAV networks, and web development, I combine technical expertise with creative problem-solving.

I'm dedicated to continuous learning and staying updated with the latest technologies. My experience spans from industrial training at NTPC to project development in complex communication systems.

INTERNSHIP & INDUSTRIAL TRANNING

- Industrial Trainee | NIELIT Kokrajhar EC *May,2025 – July,2025*

  Project: An accident detection and location tracking system.
  Developed a hardware-based system to detect vehicle accidents using accelerometer sensors. Integrated GPS and GSM modules to track the exact location of the accident and send automated alerts. Gained hands-on experience in Embedded Systems, sensor interfacing, and real-time data tracking.

- Industrial Trainee | NTPC Bongaigaon | C&I Department
  (*Dec,2024 – Jan,2025)*

  Studied the Control & Instrumentation (C&I) systems used in a thermal power plant. Gained exposure to DCS (Distributed Control Systems) and PLC (Programmable Logic Controllers). Observed the calibration and maintenance of industrial sensors, transmitters, and actuators used in power generation.

- Embedded System Inter | Yhills (Remote Internship) *Feb,2023 – Apr,2023*

  Worked on programming and simulating circuits using tools like Tinkercad. Developed a project "Temperature Control Fan" using C. Gained experience in remote collaboration and technical documentation.

TECHNICAL SKILLS

- Engineering Software: MATLAB, Simulink,
- Programming: C, C++, Python
- Productivity: MS Office (Excel, Word and PowerPoint)
- Design: Adobe Creative Suite (Photoshop, Adobe Premier, Lightroom)
- Core Knowledge: IoT, Wireless Network (RSMA/NOMA), Control and Instrumentation

MAJOR PROJECTS

UAV -Assisted Vehicular Network

- Achievement: Presented at Anveshna (North East) Engineering Competition.
- Researching trajectory optimization for better vehicle connectivity using RSMA and NOMA.
